

LEGIONS FROM INDIA PARADE IN LONDON

Reviewed by Queen Alexandra from Her Carriage.

THEIR SPECTACULAR MARCH

Forty-three Detachments of Lancers, Grenadiers, Sikhs, Gorkhas, and Others—Orders and Decorations Presented by the Prince of Wales.

LONDON, July 2.—The Indian troops were reviewed in the Horse Guards parade today, under like circumstances as those which attended the review of the colonial troops on yesterday. The weather today was hardly conducive to enthusiasm. The sky was dull and leaden, but with no fall of rain. But in spite of this a big crowd assembled along the route taken by the Indian troops to and from the train.

An Oriental Panorama. The troops, which numbered 1,300, presented a varied and brilliant aspect. There were forty-three mounted detachments, representing every race and religion in India. All were variously equipped and uniformed in all the colors of the Oriental bazaar. The men are very tall and thin, because of their vegetarian habits. Their skins are of all shades from white to darkest brown, and all these in line had the straight Caucasian features, with the exception of two detachments from the near Tibetan frontier, who had a Mongolian appearance. English troops, commanded by the Duke of Connaught, held the lines. The prince, assisted by a large staff, reviewed the Indians.

Cheers for the Queen. The Queen was a spectator from her carriage, driving up and down the lines amid the greatest enthusiasm. The public, which had small chance to see the review on account of the limited space, gave vent to their enthusiasm as the troops marched to the place of review. After the review the Prince of Wales presented orders and decorations to the Indians, and then called for three cheers for the King, which were given with a hearty good will. The Indians then marched past the prince and his suite, and dispersed.

The Prince of Wales rode from the York House to the review in the uniform of a general. Lord Roberts preceded him and received a tremendous welcome from the crowd.

Those in the Line. Enthusiastic greetings particularly were accorded the Bengal Lancers, the Bombay Grenadiers, the Madras Pioneers, the Sikhs, Gorkhas, and many others. The First Life Guards escorted Queen Alexandra, the Princess of Wales, and the Princess Victoria to the reviewing stand.

Abaze With Oriental Color. Yesterday it was khaki and the more somber British uniforms. Today the parade ground was ablaze with Oriental color and magnificence, especially in regard to the Prince and Princess of Wales and the accompanying cavalcade of princes, potentates and foreign representatives and attaches.

Queen Alexandra wore a white figured silk gown with a very light mussy tulle. She appeared to be in better health than yesterday. Her majesty received a continuous and hearty ovation on her way to the parade ground and on her return to the palace.

BILL RESERVING PUBLIC LANDS IN PORTO RICO

Passed by the House and Becomes Law. Traveling Expenses for Resident Commissioner.

In the House yesterday Mr. Crumpacker (Rep., Ind.) call up the conference report on the bill to authorize the President to reserve certain public lands in Porto Rico and to cede certain lands to the territorial government.

One of the amendments incorporated in the bill gives the resident commissioner to the United States his traveling expenses to and from Porto Rico once a year and fixes his term of office at two years from the fourth of March succeeding his election. The report was adopted.

DINNER PLATE HIS WEAPON.

Obstreperous Boarder Injures the Nose of His Aged Landlord.

The police are looking for Peter Souden, who is charged with assaulting William Dunnigan, aged sixty-three years, who resides at 2652 M Street northwest.

Souden, who had been boarding with Dunnigan, engaged in an altercation with the latter last night while at the dinner table. When Dunnigan requested the man to cease his profane language, he threw a large plate at him, which struck him on the bridge of the nose, inflicting an ugly wound. Dunnigan was taken to the Georgetown University Hospital, where several stitches were found necessary to close the wound.

After the wound had been dressed, Dunnigan swore out a warrant for his assailant. It was reported at the station this morning that Souden had left town.

Victor Emmanuel to Go Traveling.

ROME, July 2.—It is semi-officially announced that King Victor Emmanuel will visit St. Petersburg during the present month, and Berlin during the month of August.

American Squadron at Southampton.

View of the postern of the station naval ceremonies Rear Admiral Crowninshield, commanding the European naval station, will reassemble the vessels of his squadron, with the exception of the gunboat Nashville, at Southampton, England.

CENSUS REPORT ON BOOT AND SHOE TRADE

Large Amount of Capital Invested in These Industries in the United States.

The manufactures division of the Census Office has made a report on the boot and shoe industry in the United States. The reports show a capital of \$101,735,233 invested in the manufacture of boots and shoes. This sum represents the value of land, buildings, machinery, tools, and implements, and the live capital utilized, but does not include the capital stock of any of the corporations. The value of the product is returned at \$261,928,580, to produce which involved an outlay of \$7,557,749 for salaries of officials, clerks, etc.; \$39,175,883 for wages; \$10,766,403 for miscellaneous expenses, including rent, taxes, etc.; and \$159,604,654 for materials used, mill supplies, freight, and fuel.

JAPAN WILLING TO BUY PHILIPPINE ISLANDS

Empire Desirous of Getting the Archipelago.

Governor of Formosa to Discuss Matter With President When He Arrives Here.

CHICAGO, July 2.—Coto, Japanese governor of Formosa, says Uncle Sam can find a ready market for the Philippines. "Japan would like to have the Philippine Islands," said Dr. Coto. "We want them, need them, and are willing to negotiate with the United States for them, but we cannot buy them now. Should the United States desire to get rid of the islands they have a ready purchaser in Japan when we have saved up enough to pay for the property. I will discuss the matter with the Chief Executive of the United States when I reach Washington." Through his interpreter he said that he was here on a pleasure trip, though he was authorized by his government to inquire into the conditions regarding the Philippines, which Japan has an eye on. "We cannot ask or bid to the United States for the islands now," he said, "but we would like to have them, and I am led to believe from reports in my country that the United States is willing to dispose of the islands as soon as it can honorably."

MORE CLERKS FOR THE LIBRARY OF CONGRESS

List of New Appointments to Be Announced in a Few Days.

The list of appointments at the Library of Congress provided for by the recent act of Congress has been completed and will be announced in a few days. The measure called for the appointment of thirty-three additional employees, nine copyright clerks and twenty-four catalogists. The former were appointed several months ago, but were not put on the regular rolls until recently. By reason of the new appointments there has been a number of promotions of old clerks, giving the latter higher-salaried positions and installing the new appointees at lower salaries.

Steamer Cambridge All Right Again.

BALTIMORE, July 2.—Baltimore, Chesapeake and Atlantic steamer Cambridge which was ashore on a bar near Calabore for two days, has been floated unharmed and yesterday resumed her trips.

CONGRESSIONAL ACTS PLEASE PRESIDENT

Is Highly Satisfied With the Philippine Measure.

ASSEMBLY PLAN APPROVED

Governor Taft and President Schurman of Cornell Agree on Advantages to Be Derived From It—Efforts to Make the Appropriations a Party Issue.

According to the Washington correspondent of the "Philadelphia Press" the final disposition of the appropriation and other bills has been very satisfactory to the President and the Rep. Vilas in both branches of Congress. Efforts were made in some Democratic newspapers to make it appear that the President and Mr. Lodge were greatly disappointed in the refusal of the House to accept the Senate bill providing a civil government for the Philippine Islands.

Statement Denied. There is the highest authority for saying that there is not a word of truth in that statement. The bill that passed the House in regard to the Philippine Islands is more satisfactory to the President and probably to Mr. Lodge himself than was the Senate bill.

The Senate bill, as introduced by Mr. Lodge, provided for the gold standard, the same as was adopted by the House. But inducements in the Senate led to a change of that provision. If it could have been agreed to in conference it would have pleased the President as well as Senator Lodge and Governor Taft. But as the bill became law there is no change in the monetary standard in the Philippine Islands from that which now exists. There is a provision in regard to subsidiary coinage, but that is the only change.

Approved by Taft. The provision in the House bill in regard to the Philippine Assembly or Legislature was put there with the approval of Governor Taft. It, however, will not take effect until two years after a census has been taken and peace fully established. One great advantage of the provisions of the bill as adopted in conference is that it absolutely forbids any exploitation of the Philippine Islands. At the same time it will admit of the development of the islands and the President is well satisfied with it.

President Schurman, of Cornell University, a member of the first Philippine Commission, yesterday sent a telegram to Chairman Cooper, of the House Committee, congratulating him on the provision in the bill for a Philippine Assembly.

Naval Appropriations. The settlement of the disputed point in the naval appropriation bill so as to make it mandatory that one of the new battleships shall be built in a Government yard will probably result in some loss to the Government, though it will not be without its benefits. It will show the difference between constructing a ship in a Government yard and in a private yard, and it may have the effect of keeping down the bids of private builders on such ships. The Senate provision for more submarine boats was entirely stricken out.

The House passed the bill to promote the efficiency of the Marine Hospital Service and to change its name to the Public Health and Marine Hospital Service, and as the Senate had already passed the bill it is now a law. That will be of considerable advantage in promoting the public health of the country and in bringing about a more uniform quarantine service.

Special Future Expenditures. The Democrats are trying to make a point by including in the appropriations of the session those made for the isthmian canal and for public buildings, river and harbor contracts, and for improvements at the Military Academy, although they will not all be expended in the next fiscal year. It is probable that very little of the appropriation for the isthmian canal will be expended in this fiscal year, but if it should all be used it could in no sense be regarded as an ordinary appropriation, though Mr. Hay of Virginia and other Democrats have included the entire \$185,000,000 authorized to be used for the canal as a part of the ordinary expenses of the Government. Then they figure in the \$138,472,000 of the estimated expenditures of the Postoffice Department as another appropriation, although it is probable that the revenues of the Department will meet nearly all if not quite all of the expenditures. This illustrates the way the Democrats are trying to make party capital.

KIDNAPING CHARGES AGAINST A WOMAN

Eva L. Randall, of Boston, Accused of Abduction

Her Victim Said to Be the Thirteen-Year-Old Son of Charles Petrof.

BOSTON, July 2.—Eva L. Randall, married, forty-two years old, residing at No. 37 Border Street, East Boston, has been arrested, charged with kidnaping William E. Petrof, the thirteen-year-old son of Charles Petrof, of 13 Cottage Street, Beachmont.

The boy is alleged to have been kidnaped May 17 last, and as yet no trace nor tidings have been seen or heard of him. He is said to be an intelligent lad and his disappearance has nearly driven his father crazy.

The Randall woman maintains her innocence and denies any knowledge of the affair. What evidence the police have against her is not known. It is alleged that the Randall woman had become infatuated with the boy. She dearly loved him and often expressed a desire to adopt the boy.

ELECTRIC SYNDICATE FORMED AT BALTIMORE

Companies Merged to Operate Susquehanna Plant.

BALTIMORE, July 2.—The entire system of electric railways in this city and suburbs is to be operated by power furnished by immense hydraulic and electric works on the Susquehanna River run on the Niagara plan.

A deal which has been pending for over a year was closed yesterday. It involves the United Electric Light and Power Company, as also the Mount Washington Electric Light Company. A syndicate in which the New York, New Jersey and Baltimore Electric Companies, as well as Philadelphia and Baltimore, capital is interested, has been organized under the financial direction of the Continental Trust Company, of Baltimore, to absorb the light and power companies and develop the Susquehanna plant.

A contract has been signed under which the latter is to receive the power for operating its lines from the Susquehanna Company.

The price paid by the syndicate for the two lighting and power companies is about \$300,000. It is said the Susquehanna Company will have three plants, of 40,000 horsepower each.

The deal between the Continental Company and the United Railways assures the completion of the great works and the further development of a plan to turn the light and power to a number of Maryland towns, as well as assuring electric railway connections between several of them and Baltimore.

In financial circles it is believed that the syndicate will ultimately control the electric power and lighting in Baltimore. It will be some time, however, before the works will be constructed.

SPEND THE FOURTH at Chesapeake Beach!

Down on the Bay. Where the Cool Salt Breezes Blow. Plenty of Room and Accommodation for All.

Trains will leave District Line Station, 9:30, 10:30, 11:30 a. m.; 1:30, 2:30, 3:30, 5:30, 7:00, and 8:30 p. m. Returning, leave the Beach, 12:40, 1:50, 3:00, 5:30; 6:50, 8:00, 9:10, and 10:30 p. m.

None but the Brave—

With Illustrations in Color, \$1.50.

A Delightful Bit of Romance.

An Altogether Charming Story of Love and Adventure.

By Hamblen Sears.

A Book You Ought to Read.

A Story of Great Historic Value Attractively Written.

Now Ready and for Sale Everywhere.

THE moods of a maid and the adventures of a Revolutionary hero are here worked up into one of the most fascinating and exciting tales yet written about the stirring days of the Revolution. Merion Balfour, the hero, and his fellow-soldiers, John Acton and Robert Curtis, are bound up together by both choice and circumstance much as were the "three hardmen" of Dumas, and their adventures are no less thrilling and romantic than the deeds of those classic heroes. Rarely has there appeared in fiction a maid of such versatile powers to charm and pierce the soul of a lover as the tantalizing royalist, Deborah Philpote, for whom the hero gets into trap, risking life and honor for her sake, only to be ignored and insulted a few moments afterward, until—but that's the story; and a charming, graphic and original denouement it presents.

Every one who loves the scenes of galloping cavaliers, brave swordplay, desperate adventures and the flash and charm of a game of hearts will want to read NONE BUT THE BRAVE—

Dodd, Mead & Company PUBLISHERS, 372 FIFTH AVENUE, NEW YORK.
